Safety and Welfare

The campsite office is situated near the toilets and showers in the central area. Here you will find event information, message board, phone charging point, lost property and secure locker service. The campsite has a 24hr security presence, however all property brought onto site remains the owners responsibility.

A few tips..

Only bring with you what you can afford to lose. Remember there is no way to make a tent 100% secure so only bring what you absolutely need. Don't be tempted to leave valuables in a car either. Secure lockers are available at the campsite office. Do not challenge people looking through tents – report them to festival staff immediately.

Camp near friends. Say hello to your neighbours and build a community feeling to provide greater security around your tent.

Mark your property. Label your belongings, including your tent, with your name, telephone and postcode.

Keep cash and valuable possessions on you, but don't keep all your money, bank cards and valuables together, spread them around in different pockets. Before going to sleep place them in a plastic bag and keep this in your sleeping bag with you.
