SWE08270 THROWING AND TURNING FOR BEGINNERS

Tutor: JO TAYLOR

Dates: WEEKEND FRIDAY 19 OCTOBER – SUNDAY 21 OCTOBER

ABOUT YOUR COURSE:

This course will gently guide beginners through the throwing process, creating basic cylinder and bowl forms, and turning a foot to complete a bowl form.

A talk on the first evening will introduce tutor Jo Taylor and her practice, and outline the course, looking at examples of inspiring forms.

The first morning starts with fully explained demonstrations of clay preparation, centring and creating cylinders. You will then spend the rest of the morning practicing these techniques.

Jo is an experienced tutor and will spend one to one time with everyone to help build confidence and a solid technique throughout the day. After lunch the bowl form will be demonstrated and the rest of the afternoon will be spent working with this technique.

The second morning will start with the demonstration of the turning technique on leather hard work, with an additional demonstration of making handles to add to cylinders if desired. The remaining time will be used to continue perfecting throwing technique, with a group review at the end.

Firing and glazing of raw, finished pieces: Students normally have three options at the end of the course:

- 1 Students may leave any raw, finished pieces that they wish to keep, for biscuit firing, basic glazing and re-firing by the College, for collection at a later date.
- 2 Students may leave raw, finished pieces for biscuit firing at the College. They may then book a place on a Glazing Day – the details and fee are advertised in the short course programme – and learn how to glaze their work themselves. This work will be re-fired and available for collection at a later date. (There is no further charge for the glazing materials if you choose to book a glazing day.)
- 3 Students are free to take away their unfired pots for firing and glazing elsewhere.

HEALTH AND SAFETY:

The tutor instructs students in health and safety issues relevant to this course. Students may work unsupervised on agreed projects once they have satisfied the tutor as to their competence. There may be restrictions on the equipment available to students in the tutor's absence. All Personal Protection Equipment, apart from footwear, is provided by the College.
