SLW08319: WILLOW BASKETRY – USING SCALLOMS

Tutor: MARY BUTCHER

Dates: LONG WEEKEND FRIDAY 9 NOVEMBER – MONDAY 12 NOVEMBER

ABOUT YOUR COURSE:

A scallop is a long tongue made by cutting each willow rod in a particular way so that it can be attached to a hoop or basket base in an efficient, elegant way. You will first learn, with uncut material, how scallops work. This will be followed by learning the cutting method to prepare the rods, a knack which may take some practice. You will then make at least one structure using them, a platter for hot baking just out of the oven, a small shopper or an appropriate object or basket of your choice.

During the course you will gain a good knowledge of this method for constructing traditional English baskets, using a variety of weaves for base, sides and borders. It can be used for elegant trays for cooling bread, cakes or for serving cheese, with or without handles. You will also hear about some appropriate basket history, willow growing, harvesting, preparation and use.

LEVEL: INTERMEDIATE/ADVANCED

For those who have taken a related course or have some existing skills, and for more experienced practitioners who want to expand skills. The focus is on working towards independent practice.

ABOUT YOUR TUTOR:

Mary Butcher MBE is a basketmaker, exhibition curator, writer and teacher. She held a prestigious crafts residency at the V&A's Sackler Centre in 2009.
