ID5974 THE INSTANT SKETCHBOOK

Tutor: ANNABEL TILLEY

Date: 1 DAY FRIDAY 11 MARCH

ABOUT YOUR COURSE:

"Hourly, daily, weekly, timed and subject-focussed sketchbooks can be used as research tools to explore a specific idea or technique or simply to re-engage with or revitalise your practice. For example if you are time-short but can set aside an hour a day or an afternoon a week, use it to make an instant sketchbook – something that holds and represents your current ideas and investigations in miniature."

The humble artist's sketchbook can be a magical component of any artist's practice. Learn how to create an instant sketchbook using simple techniques including drawing and collage. You will be encouraged to trust in your own quick-thinking judgement for short periods of time to create imagery quickly as one idea leads to another.

Annabel will demonstrate how an instant sketchbook can be a practice-changing, joyful and liberating experience. You will learn, in the process, how to overcome the hesitancy and indecision that can often eat away at precious studio time, and will find yourself trying new approaches in terms of colour, form and composition and taking risks you might never have taken before.

By the end of the course you will have created and filled at least two sketchbooks of your own making, have gained confidence in making quick decisions, and will have developed new ideas through working with collage, colour, composition and drawing.
